

FY 2009-2010

Unified Budget Recommendation

Alabama Commission
on Higher Education

ALABAMA COMMISSION ON HIGHER EDUCATION

UNIFIED BUDGET RECOMMENDATION
FOR FISCAL YEAR 2009-2010

"..... The Commission shall receive, evaluate and coordinate budget requests for the public institutions of higher education of this state, shall hold open hearings on the budget requests of the separate institutions and shall present to each institution and to the Governor and the Legislature, a single unified budget report containing budget recommendations for separate appropriations to each of the institutions. The consolidated budget and analysis of the Commission shall be accompanied by the original requests and their justifications as submitted by each institution. The recommendations of the commission shall be derived directly from its assessment of the actual funding needs of each of the universities, as presented to it by the presidents, which assessment may include, but shall not be limited to, derived conclusions that may be based upon standard techniques of objective measurement, need and unit cost figures arrived at through the use of comparative and verified data secured from the various institutions, applied in an impartial and objective manner, and comparison shall be made not only between similar functions of institutions in Alabama but also between Alabama institutions and similar functions of institutions located in other states, provided that nothing herein shall be construed to prohibit any institutions of higher education in this state from submitting any matter pertaining to the financial operation and needs of said institution to the Legislature or to the Governor at any time."

SECTION A

FY 2009-2010 UNIFIED BUDGET RECOMMENDATION

by

THE ALABAMA COMMISSION ON HIGHER EDUCATION

**Unified Budget Recommendation
By The Alabama Commission on Higher Education**

As prescribed by Section 16-5-9(b) of the Code of Alabama, the Alabama Commission on Higher Education has evaluated the budgets submitted by the senior public institutions of higher education and by the Chancellor of the community and technical colleges. At the Commission meeting on December 12, 2008, the Commission reached two sets of higher education funding recommendations for Fiscal Year 2009-2010.

The first recommendation, identified as the FY 2009-2010 Alabama Commission on Higher Education (ACHE) Funding Standard, (column 2 of the Executive Summary table, pages A-4 & A-5) is a statement of the Commission's estimate of the basic financial requirements that should be provided to support the institutions and their programs if Alabama higher education is to provide regionally competitive education to its citizens. The second recommendation, identified as the FY 2009-2010 Recommendation, (column 8 of the Executive Summary table on page A-4 & column 7 on page A-5) provides an overall appropriation increase of approximately thirteen percent (13.04%) from the Education Trust Fund (ETF) for public colleges and universities.

The Commission recommends a funding level of \$1,797,808,152 for all public colleges and universities. The recommendation is based on the following (2-6 not in order of priority):

1. That each institution receives its previous year's total appropriation as its base. (Pages A-4 & A-5 column 1).
2. Funds cut from the FY 2009 appropriation are restored to the four and two year institutions to bring the appropriation back up to the FY 2008 level; (column 6 on Page A-4 & column 5 on Page A-5).
3. PEEHIP rate increase (the state provided health insurance for two-year public institutions, JSU and Athens, only) and retirement rate increases (two and four-year institutions) (columns 3 & 5 on Page A-4 & columns 3 & 4 on Page A-5).
4. Fund rate increase for mandated PEEHIP retirees' health insurance rate for public senior institutions who do not participate in PEEHIP (all except Athens and JSU) (Page A-4 column 4).

Athens State University and Jacksonville State University are the only two public senior instituting that participate in PEEHIP and are therefore not required to pay additional costs for their retirees.

5. Funds needed to cover the requirements of *Knight v. Alabama* or other matching requirements should be covered.
6. If there are not enough funds available to cover the amounts required for the items listed above that any new funds be distributed based on the index of the restoration of the FY 2009 cuts (column 6 on Page A-4 & column 5 on Page A-5).

The Commission approved these recommendations at its December 12, 2008 meeting.

Alabama Commission on Higher Education (ACHE) Funding Standard

The ACHE Funding Standard (page A-9) is based on the following (see Section C for a more detailed explanation of the ACHE Funding Standard):

- (1) The institutional Academic Programs, or "O&M," amounts are the products of the Commission's funding formulas for academic programs;
- (2) Facilities renewal needs are based on the Commission's formula for estimating facilities renewal allowances and backlogs;
- (3) Research and Public Service "line items" have been carried forward using an allocation scheme based on instructional formulas;
- (4) Necessary funds legally required to provide the employer's matching share of FICA and TRSA are included at levels expended the previous year.

Modified Funding Recommendations

Historic difficulties in proposing a Unified Budget Recommendation for higher education in Alabama are magnified by the necessity to complete the recommendation process before firm projections are made of ETF revenues and problems in resolving the gap between institutional needs and available state resources. Once again, the Commission has struggled to provide a viable recommendation within the confines of expected ETF revenues.

Facilities Renewal costs are included as a sum of the educational activities generating the need. Each institution's recommendation includes an allocation based on the Facilities Renewal Formula applied to inventoried space. The Commission continues to endorse treatment of major capital needs for the institutions via processes ancillary to the regular appropriations bill.

The Commission also includes recommendations for other lines not directly associated with a public college or university (Pages A-6 - A-8). These recommendations increase the total

FY 2009-2010 recommendation by an additional \$22,776,088. \$11,678,292 of these funds are funds that the entities reverted from FY 2008 and per Section 20 of Act 2008-552 are to be reappropriated during FY 2008-2009. The agencies that reverted these funds want the funds to continue in FY 2009-2010. Therefore the amount of new money being recommended for these state level lines is \$11,097,796.

This brings the total increase in funds needed to \$218,444,804 or an increase of slightly over twelve percent (12.37%). The total amount recommended for higher education from the Education Trust Fund is \$1,984,369,594.

The Commission also is requesting for funds for a new line for FY 2009-2010, the PK-20 Initiative. The Commission requests \$1,500,000 for the PK-20 initiative. These funds would be used to improve early learning opportunities, expand access to college and/or employment by modifying delivery options, and create recognizable benchmarks for success with clearly defined competencies to ensure positive outcomes; thus, reducing the need for continuing remediation and addressing drop-out and accountability issues.

Special Circumstances of this Unified Budget Recommendation

It is important to note that the Commission on Higher Education continues to seek a balance between legitimate institutional needs, as reflected in the construction of the ACHE standard, and the historic gap in actual appropriations. If Higher Education receives a fair share of revenues and if the political leadership uses the recommended approach for distribution among institutions, convergence of relative needs and appropriations will occur. That goal is termed Equity in funding.

The Commission believes that the distribution incorporated in this Unified Budget Recommendation is one of many required steps to improve higher education funding in Alabama.

Notes:									

1) FY 2009 increase based on increase calculated using FY 2008 & 2009 amounts included in EBO forms. FY 2010 based on calculations made by the AL Comm. on Higher Education using the increase in FY 2009 rate (12.07%) to the FY 2010 rate (12.51%). Rates subject to change due to legislative action.

2) FY 2009 increase based on number of retirees reported as of September 2007 times \$367 a month rate and the amount included in the Needs Assessment survey for FY 2009. Retirees from the October 2008 count have been increased 6% for FY 2009-2010. FY 2009-2010 rate based on an increase from FY 2009 rate of \$82 by 5% for a rate of \$401. This estimate has been calculated by the Alabama Commission on Higher Education and has not been verified by PEERHB and is subject to legislative action.

3) Funds for Athens State University, Jacksonville State University and the Two-Year colleges are supplied by the institutions.

4) Includes cuts only for unrestricted O&M allocations. Cuts to designated programs are not included

5) Includes funds for Extension-Urban Affairs & Nontraditional Land Grant Program and Ag Research Station Fixed Costs

6) Additional FY 08-09 allocation of \$2,500,000 for this line is included in the line for the Alabama Agricultural Land Grant Alliance (ALGA). The total amount allocated for FY 2008-2009 was \$4,001,585.

Knight vs. Ala. Remedy Title VI Trust for Excellence in Education

Ordered by U.S. District Court for the Northern District of Alabama Southern Division due to Civil Action No. CV 83-M1676-S. Additional \$1,000,000 possible based on state matching to endowment funds. FY 2007-2008 and 2008-2009 appropriation for this line included in the Knight vs. Alabama financial obligations line.

* Additional funds to match the State direct portion of the Federal allocation are included in the line for the Alabama Agricultural Land Grant Alliance.
 The total amount allocated for FY 2007-2008 and FY 2008-2009 was \$4,001,555.

NOTE: A&M/Miles Consortium - see state level private institutions.

Knight vs. Ala. Remedy Title VI Trust for Excellence in Education

Ordered by U.S. District Court for the Northern District of Alabama Southern Division due to Civil Action No. CV 83-M1676-S. Additional \$1,000,000 possible based on state matching to endowment funds. FY 2007-2008 and 2008-2009 appropriation for this line included in the Knight vs. Alabama financial obligations line.

After FY 2008 the funds appropriated for the Title VI Program Enhancements, Desegregation Planning, BS-Health Information Management, BS-Occupational Therapy, and MS-Physical Therapy were rolled into ASU's O&M in compliance with the Settlement Agreement dated October 13, 2007.

The 2007-2008 appropriation for the Master of Accountancy Program is not included in the Grand Total for the Senior institution but is included in the Knight vs. Alabama financial obligations line.

SECTION C

FUNDING FORMULAS AND UNIFIED BUDGET RECOMMENDATION PROCESS

This section describes the various funding formulas used by the Alabama Commission on Higher Education in arriving at a statement of the level of funding required to achieve the appropriate ACHE Standard for the institutional elements of the Higher Education Budget and the processes used in the construction of the ACHE Standard for Alabama higher education funding.

Overview of ACHE Standard Formula

Formula Components:

(1) Academic Program Calculation (Senior Institutions)

Cost of Instruction and departmental operating expenses

Multiplier

- a) Unit Instructional Cost (For general studies-average regional faculty salaries divided by assumed productivity adjusted for inflation)
- b) Departmental Operating Expenses (overhead and administration)

The multiplier times weighted Semester Credit Hours (Academic weights to reflect cost differences in program mix and instruction level) equals total cost of instruction

Academic Support (5% of estimated cost of instruction and operating expenses)

Research (2% of sum of estimated cost of instruction, operating expenses & academic support)

Sponsored Research (5% of qualifying research)

Public Service (2% of sum of estimated cost of instruction, operating expenses & academic support)

Library Support (Actual unweighted semester hours, less military science, times cost factor)

General Administration & Student Services (set amounts based on headcount enrollment)

Physical Plant & Custodial Services (gross square feet multiplied by cost factor)

General Institutional Support (14% of items above)

Utilities O&M Allowance (calculations are based on consumption rates for heating, electricity, and other utilities and gross square educational and general floor area)

Less—Tuition Adjustment (90% of weighted average credit hour charge multiplied by 3-year average unweighted credit hours—court ordered exceptions include ASU and AAMU)

Utilities Capital Allowance (5-yr amortized expenditures for major repairs and replacement)

1st Professional Health (medicine, optometry, dentistry, veterinary medicine, pharmacy & teaching hospitals)

(2) Other Components of ACHE Standard Calculations (Senior Institutions):

Agricultural Experimentation and Extension (Auburn University-prior year ACHE Standard calculation times 3%)

Organized Research (8% of Academic Program Research Component for doctoral institutions and 4% for non-doctoral institutions)

Public Service (8% of Academic Program Public Service Component)

Facilities Renewal and Replacement (based on volume of physical space, its construction and age, use and nationally estimated engineering rates for renovation and replacement)

Fringe Benefits (Social Security (FICA), Retirement (TRSA) and PEEHIP (Health Insurance of prior year actual expenditures—Two-Year colleges)

Title VI Knight v. State of Alabama Court ordered funding (Desegregation)

(3) Two Year College ACHE Standard Calculations: (plus facilities renewal and fringes)

Community College = median SREB appropriation per FTE times 3-Yr Average Fall FTE

Technical College = Adjusted Expense Rate times 3-Yr Average Fall FTE

Adjusted expense rate is based on average faculty salaries, student/faculty ratio, program support expense adjustment and tuition adjustment

EXPLANATION OF ACHE FUNDING PROCESS FOR HIGHER EDUCATION

The Alabama Commission on Higher Education's recommendations for the funding of Postsecondary education are based on several types of assessment:

- A set of formulas, which relate funding needs for the academic programs of the senior and junior institutions to student credit hours, faculty productivity, and faculty salaries.
- Facilities Renewal Allowance is an estimation of the amount of money needed to provide for the aging of all building elements in a given year.
- Updated values for ongoing research and service activities and for other instructional activities which are not susceptible to "formula" determination, derived from earlier funding levels.
- Analysis of funding needs for new programs and major changes in existing programs based on estimated expenditures and revenues.

Academic Program Formula - Universities

The calculation of the Academic Program multiplier is predicated on the estimated National Association of State Universities and Land-Grant Colleges (NASUGLC) regional General Studies average salary for doctoral and regional institutions. A multiplier is determined from regional faculty salaries adjusted by an estimated departmental expense rate. The multiplier uses an assumed faculty productivity factor of 630 student credit hours (SCH) annually for doctoral institutions and 585 SCH for nondoctoral institutions. These productivity factors imply a General Studies faculty to student ratio of 1:26 for doctoral institutions and 1:24 for regional institutions.

The computations for FY 2009-2010, for the senior institutions, are shown on page C-7.

The amounts calculated above are distributed to institutions according to a formula consisting of the sum of the following elements:

- (a) Weighting Factors
- (b) Other Cost Factors.

Notes:

- A. Multiplier equals Region IV inflation-adjusted salary divided by productivity of 630 semester credit hours, plus 20% of salary cost added for Departmental Operating Expense. Multipliers are based on salaries two-years prior to formula year, adjusted for inflation.
- B. Multiplier applied to nondoctoral is weighted by the average ratio of CUPA to NASULGC national salaries times the ratio of doctoral productivity (630 SCH) to nondoctoral productivity (585 SCH).
- B. Multiplier applied to nondoctoral is weighted by the average ratio of CUPA to NASULGC national salaries times the ratio of doctoral productivity (630 SCH) to nondoctoral productivity (585 SCH).

Source: 2007-2008 National Faculty Salary Survey by Discipline and Rank in Four-Year Colleges and Universities,
College and University Professional Association for Human Resources and 2007-2008 Faculty Salary Survey
by Discipline, Office Institutional Research, Information Technology Division, Oklahoma State University.

Senior Institutions

1. Instruction: The three-year average of actual on-campus weighted semester credit hours for 2005-2006, 2006-2007, and 2007-2008 is applied to the instructional multiplier. The instructional multiplier is 151.21. Remedial credit hours receive an additional 115% increment.
2. Academic Support: 5% of the amount generated for instruction.
3. Research: 2% of combined amounts for instruction and academic support plus 5% of 2006-2007 sponsored research.
4. Public Service: 2% of combined amounts for instruction and academic support.
5. Library Support: Actual on-campus unweighted semester credit hours (except military science) corresponding to the weighted credit hour value multiplied by the following cost factors:

Undergraduate	\$12.04
Graduate I (Masters)	24.16
Graduate II (Doctoral)	103.46
Law	63.82

6. General Administration and Student Services (GA/SS): For institutions with total approved campus headcount enrollment of less than 4,000:

1 to 2,000 Headcount	\$1,477.78
2,001 to 2,999 Headcount	777.78
3,000 to 3,999 Headcount	349.77

For institutions with total approved headcount enrollment of 4,000 or greater:

First 4,000 Headcount	\$609.51
4,001 to 8,000 Headcount	456.47
Over 8,000 Headcount	410.57

The GA/SS amount is computed based on total approved headcount, then distributed proportionately among the GA/SS components of the formula funded lines of the institution.

Example: Total Approved Headcount	4,000
Main-Campus Headcount	3,800
Approved Branch Campus Headcount	200

$$\text{Total GA/SS} = 4,000 \times 609.51 = \$2,438,040.$$

$$\text{Main-Campus: } \frac{3,800}{4,000} \times 2,438,040 = \$2,316,138$$

$$\text{Approved Branch Campus} \quad \frac{200}{4,000} \times 2,438,040 = \$121,902$$

7. Maintenance of Physical Plant and Custodial Services: Gross square feet (GSF) as of June 30, 2008, multiplied by \$6.15.

8. General Institutional support: 14% of total amount generated in items 1-7.

9. Utilities: This calculation is a combination of two different calculations. The first calculation uses the highest annual consumption rate per gross square foot of E & G floor area for the last three years (July-June, 2005-06, 2006-07, and 2007-08) for heat energy and electrical energy multiplied by projected rates per energy units for 2007-08. The "other" utilities input (water, sewage, and solid waste disposal) is calculated by multiplying the actual rate of consumption per gross square foot of E & G floor area for 2007-08 by a projected rate per energy unit for 2008-09. The projected escalation factors for heating fuel, electricity and other utilities are the same as the inflation factors that were used throughout the calculation of the ACHE Standard (1.054 and 1.041). The second set of calculations are made using a statewide standard, which is based on the average annual consumption rates for heating, electricity, and for other utilities combined. The standard consumption rates are then applied to the projected rates of costs for each institution. The gross E & G floor area as of June 30, 2008 is then multiplied against the higher of these two calculations.

10. Tuition Adjustment: A weighted average credit hour charge was calculated, using 2008-09 tuition and required fees and three-year average unweighted credit hours. Ninety percent (90%) of that rate multiplied by the three-year average of unweighted credit hours (excluding Military Science) is the tuition deduction for all institutions. For the 2009-2010 formula, the weighted per-credit-hour tuition deduction is \$183.01.

Additional Components added after the Academic Program Formula calculation in order to determine the ACHE Standard

The Academic Program Formula provides only a portion of the funds needed to carry out the assignments of Alabama public colleges and universities. Additional components of funding are added to the Academic Program Formula to cover these needs.

These needs include organized research and public service (the historic “line item” activities), facilities renewal, and funds to cover Social Security and Retirement and additional funds for health insurance for the two-year institutions.

Organized Research and Public Service

Doctoral institutions receive an additional eight percent (8.0%) and nondoctoral institutions receive four percent (4.0%) of the amount they received from the academic program formula for Research. All four-year institutions receive eight percent (8.0%) of instructional costs for Public Service.

Facilities Renewal Allowance

The Facilities Renewal Allowance is calculated from a detailed formula based on the volume of physical space, construction, age and use (office, classroom, lab, etc.). Nationally estimated engineering rates for renovation and replacement are used to determine the costs factors. (Page C-16)

Fringe Benefits

Social Security (or FICA), and Retirement (TRSA), and PEEHIP (Health Insurance), are included at the reported actual expenditures of the previous year.

All of these needs, in composite, are referred to as the ACHE Standard.

Community College Funding Needs
Alabama Public Institutions
Fiscal Year 2009-2010

The funding rate per FTE student of the Southern Regional Education Board (SREB) states is calculated. The rate is multiplied by the Alabama Community College three-year average Fall FTE enrollment to produce a total which approximates the amount funded at the average of the SREB states.

STATE	APPROPRIATIONS	FTE ENROLLMENT	\$/FTE

Technical Colleges Funding Needs
Alabama Public Institutions
Fiscal Year 2009-2010

Total funding needs for the Alabama technical colleges are estimated by calculating the average salary (9 months) for technical college faculty, applying a standard student: faculty ratio (15:1) to determine instructional salary expense per student FTE, and multiplying this rate by the three-year average Fall FTE enrollment.

AVERAGE FACULTY SALARY 2007-2008	53,740
INFLATION FACTOR 1.0972	58,964
PROJECTED INSTR'L EXP/FTE	3,931
PROJECTED TOTAL EXP (DIVIDE BY .6)	6,552

Notes:

(a) Recommended funding calculations based on \$3,929 per FTE for Community Colleges and \$4,122 per FTE for Technical Colleges.

Facilities Renewal Requirements

Basis of Estimates:

In its Unified Budget Recommendations for the last several budget years, the Alabama Commission on Higher Education included funding, to be provided from nonrecurring revenues, for the renewal of facilities. The amount recommended for each institution is an estimate of the amount of money needed to provide for the aging of all building elements in a given year.

The method used by the Commission staff to estimate facilities renewal needs is not as precise as a carefully prepared engineering estimate based on detailed facilities inspections. However, until each institution has thoroughly documented its entire requirement for repair and renovation, a detailed engineering estimate cannot be prepared and the process followed by the staff provides a consistent and realistic estimate of needs.

The rationale behind the process is as follows:

- (1) The incidence of major repair and the need for general renovation of a building increase with its age, and the relationship is generally skewed toward the older, unrenovated facilities.
- (2) Different elements of a building wear out or become obsolete at different ages. For example, foundations and principal elements of the superstructure are essentially permanent. Exterior walls, plumbing, and lighting have expected life of 40 to 50 years. Roofs and air conditioning should last 20 to 25 years. Interior surfaces require reworking in 10 years or less.
- (3) Different types of buildings, even though constructed to similar standards of quality and of similar materials, are comprised of different combinations ("mixes") of elements, and the cost of replacing or renovating each type depends on the mix and the cost per square foot of each element.
- (4) The "renewal allowance" of a building is defined as the amount that should be budgeted in any year to provide for the aging of all elements of that building. The "renewal backlog" of a building is defined as the summation of all the years' renewal allowances to date, for that building, from its initial completion (or latest complete renovation) and is a measure of the total amount that should be spent to bring the building to essentially new condition. The renewal allowances and backlogs are estimated by multiplying the sums of maximum renewal costs for each 25-year and 50-year element by factors reflecting the age of the building elements.

Attachment 1 summarizes maximum renewal costs, at 2008 construction cost levels, for 50-year and 25-year elements, for different types of college and university buildings, derived from the 2008 Means Square Foot Costs. These construction costs were then adjusted using a regional cost factor of .80. Elements normally requiring reworking or replacement in less than 20 to 25 years (e.g. wall finishes) are not included in renewal costs, on the basis that these elements are dealt with in the course of regular maintenance.

Procedure for Calculating Renewal Allowances and Backlogs

Renewal Allowances and Renewal Backlogs are calculated as follows:

(1) Calculate the current replacement value of each 50-year and 25-year element of each major campus building according to Attachment 1 and determine the Maximum Renewal Allowance for each facility as follows:

- (a) 50-year Elements: Maximum Renewal Allowance is the sum of the current replacement costs of 50-year elements.
- (b) 25-year Elements: Maximum Renewal Allowance is the sum of the current replacement costs of the 25-year elements.

(2) Calculate the "adjusted age" of the 50-year and 25-year elements for each building that has undergone renovation since its construction (up to 50 and 25 years respectively), as follows:

(a) 50-year Elements - Multiply the proportion of the building area renovated by the time elapsed since each renovation. Multiply the proportion not renovated (i.e. one minus the proportion renovated) by the age of the building up to and including 50 years. The sum of the two (or more) products equals the adjusted age of the 50-year elements.

(b) 25-year Elements - Multiply the proportion of the building area renovated by the time elapsed since each renovation. Multiply the proportion not renovated by the age of the building, up to and including 25 years. The sum of the two (or more) products equals the adjusted age of the 25-year elements.

(3) Calculate the current year Renewal Allowance for each facility as follows:

(a) 50-year Elements - Divide the building age (actual or adjusted), up to and including 50 years, by 1,275 (the sum of the years digits from 1 to 50). Multiply the quotient by the Maximum Renewal Allowance for 50-year elements and this product by the gross building area.

(b) 25-year Elements - Divide the building age (actual or adjusted), up to and including 25 years, by 325 (the sum of the years digits from 1 to 25). Multiply the quotient by the Maximum Renewal Allowance for 25-year elements and this product by the gross building area.

(c) Add products (a) and (b).

(4) Calculate a 50-year element renewal factor and a 25-year renewal factor for each facility as follows:

(a) 50-year Elements - Sum the numbers from 1 to the current (actual or adjusted) age of the building (up to 50 years) and divide by 1,275.

$$F_{50} = \frac{1 + 2 + 3 + \dots + \text{Current Age}}{1 + 2 + 3 + \dots + 49 + 50}$$

(b) 25-year Elements - Sum the numbers from 1 to the current (actual or adjusted) age of the building (up to 25 years) and divide by 325.

$$F_{25} = \frac{1 + 2 + 3 + \dots + \text{Current Age}}{1 + 2 + 3 + \dots + 24 + 25}$$

(5) Calculate the Renewal Backlog for each building as follows:

Renewal Backlog = (50-year renewal factor) x (50-year Maximum Renewal Allowance) + (25-year renewal factor) x (25-year Maximum Renewal Allowance).

(6) Sum the calculated current year Renewal Allowances and Renewal Backlogs for all campus facilities broken down by funding category (e.g. E&G, Auxiliary, Health Professions, etc.). The sum of the Renewal Backlogs represents current total renovation backlog. The sum of the current year Renewal Allowances will be the amount that should be appropriated for facility renewal for the current year.

Attachment 2 summarizes Renewal Allowances and Renewal Backlogs for all Alabama public postsecondary institutions of higher education, based on the Fall 2007 Facility Inventory, 2008 Space Data Reports, and 2008 construction cost data.
