Alabama Commission on Higher Education

PROGRAMMATIC PROFILES

Non-Resident Private Degree Granting Institutions

2015

PREFACE

As of October 1, 2015, two hundred and eighty-nine (289) private, proprietary, and out-of-state public institutions licensed or exempted from licensure by the Division of Licensure of the Alabama Community College System (ACCS), formerly the Alabama Department of Postsecondary Education (ADPE), were operating as foreign corporations in Alabama. These degree and non-degree granting institutions offer more than 5,241 programs of study.

The *Profiles* which follow identify the programs offered by the 228 degree-granting institutions subject to full-scale programmatic reviews conducted by the Alabama Commission on Higher Education (ACHE). Thirty-three (33) of these institutions were approved to offer programs at 57 onsite locations across 17 Alabama cities. Additionally, 231 institutions offer their programs of study strictly online to Alabama residents and 25 institution offer both site based and online programs.

Oversight of non-resident institutions has been delegated to two (2) separate agencies in Alabama, the ACHE and the ACCS. Under provisions of Ala. Code §16-5-10 (14) (1975) no institution of postsecondary education located outside of Alabama may offer units or programs of instruction within Alabama without prior approval of the Commission. The Commission under its rulemaking authority establishes criteria for the approval of such institutions and programs. Under provisions of Ala. Code §16-46-1, et seq. (1975), the ACCS, is responsible for the licensure of private institutions in Alabama, both resident and non-resident under provisions of the Alabama Private License School Act, as amended in 2004. A Memorandum of Agreement (MOA) between ACHE and ACCS provides for the integration of programmatic review of non-resident institutions with the licensure process.
