Alabama Commission on Higher Education

PROGRAMMATIC PROFILES

Non- Resident Private Degree Granting Institutions

2016

PREFACE

As of September 30, 2016, two hundred and thirty-five (235) private, proprietary, and out-of-state public institutions licensed or exempted from licensure by the Division of Licensure of the Alabama Community College System (ACCS), were operating as foreign corporations in Alabama under state authorization. These degree and non-degree granting institutions offer more than 4,576 programs of study.

The *Profiles* identify one hundred and eighty-nine (189) degree-granting institutions subject to programmatic reviews conducted by the Alabama Commission on Higher Education (ACHE) which include a listing of each institution's location, accreditation, instructional delivery, enrollment data, and roster of programs of study.

Oversight of non-resident institutions has been delegated to two (2) separate agencies in Alabama, the ACHE and the ACCS. A Memorandum of Agreement (MOA) between ACHE and ACCS provides for the integration of programmatic review of non-resident institutions with the licensure process.

- Under provisions of Ala. Code §16-5-10 (14) (1975) no institution of postsecondary education located outside of Alabama may offer units or programs of instruction within Alabama without prior approval of the Commission. The Commission under its rulemaking authority establishes criteria for the approval of such institutions and programs.
- Under provisions of Ala. Code §16-46-1, et seq. (1975), the ACCS, is responsible for the licensure of private institutions in Alabama, both resident and non-resident under provisions of the Alabama Private License School Act, as amended in 2004.
