Notes

(a) Does not include revenues from sales and services from auxiliary enterprises, hospitals, or educational activities.

(b) The Southern Regional Education Board (SREB) defines the Four-Year Categories as follows:

Four-Year Category 1 - Award at least 100 research & scholarship doctoral degrees distributed among at least 10 CIP categories (2-digit classification), with no more than 50 percent in any one category.

Four-Year Category 2 - Award at least 30 research & scholarship doctoral degrees distributed among at least five CIP categories (2-digit classification). Four-Year Category 3 - Award at least 100 master's, education specialist, postmaster's or research & scholarship doctoral degrees distributed among at least 10 CIP categories (2-digit classification). Four-Year Category 4 - Award at least 30 master's, education specialist, postmaster's or doctoral degrees distributed among at least five CIP categories (2-digit classification). Four-Year Category 5 - Award at least 30 master's, education specialist, postmaster's or doctoral degrees. Four-Year Category 6 - Award at least 100 bachelor's degrees distributed among at least five CIP categories (2-digit classification) with bachelor's degrees being at least 30 percent of the total awards (including certificates) and awarding fewer than 30 master's, education specialist, postmaster's or doctoral degrees.

(c) Troy Information is for Alabama sites only.

(d) Definitions for the Revenue columns

Tuition & fees, after deducting discounts & allowances - All tuition & fees (including student activity fees) revenue received from students for education purposes net of discounts & allowances from institutional and governmental scholarships, waivers, etc. Tuition & Fees are defined as the amount of tuition and required fees covering a full academic year most frequently charged to students. These values represent what a typical student would be charged and may not be the same for all students at an institution. If tuition is charged on a per-credit-hour basis, the average full-time credit hour load for an entire academic year is used to estimate average tuition. Required fees include all fixed sum charges that are required of such a large proportion of all students that the student who does not pay the charges is an exception. Discounts and allowances is defined as that part of a scholarship or fellowship that is used to pay institutional charges such as tuition and fees or room and board charges.

State appropriations - Report all amounts received by the institution through acts of a state legislative body, except grants and contracts. Funds reported in this category are for meeting current operating expenses, not for specific projects or programs.

Local appropriations, education district taxes & similar support - All amounts received from property or other taxes assessed directly by or for an institution below the state level. Includes any other similar general support provided to the institution from governments below the state level.

Investment income - Revenues derived from the institution's investments, including investments of endowment funds. Such income may take the form of interest income, dividend income, rental income or royalty income and includes both realized and unrealized gains and losses.

Government/Private Operating Grants & Contracts - Revenues from federal, state, & local governmental agencies and from nongovernmental agencies and organizations that are for specific research projects or other types of programs and that are classified as operating revenues. Operating revenues result from providing services and producing and delivering goods. Examples are research projects and similar activities for which amounts are received or expenditures are reimbursable under the terms of a grant or contract. Included federal land grant appropriations if considered operating revenue. Does not include Pell grants or other federal student aid.

Government/Private Nonoperating Other Funds & Grants - Nonoperating revenues are those generated from non-exchange transactions, such as appropriations, gifts, and investment earnings. They are often used to support the operations of the institution. The term nonoperating does not preclude use for operating expenses. This category includes the following: **Federal appropriations** — Funds received by the institution through acts of a federal legislative body, except grants and contracts. Funds reported in this category are for meeting current operating expenses, not for specific projects or programs. An example is federal land-grant appropriations. **Local appropriations, education district taxes & similar support** — Funds received from property or other taxes assessed directly by or for an institution below the state level. Includes any other similar general support provided to the institution from governments below the state level, including local government appropriations. **Federal, State & Local nonoperating grants** — All amounts reported as nonoperating revenues from federal, state, & local, governmental agencies that are provided on a nonexchange basis. Includes Pell Grants and other Federal student grant aid. Does not include revenues from the Federal Direct Student Loan (FDSL) Program, Federal Work-Study or federal veteran education benefits. Does not include capital grants & gifts.

Gifts, including contributions from affiliated organizations - Revenues from private donors for which no legal consideration is provided; these would be nonexchange transactions as defined in GASB Statement No. 33 Accounting and Financial Reporting for Nonexchange Transactions. Include all gifts or contributions to the institution except those classified as additions to permanent endowments or capital grants & gifts. Include gifts from affiliated organizations. Include the amount of contributed services recognized by the institution.

Other Revenues - This amount includes all operating & nonoperating revenues not included in other lines.
